

Singer/Songwriter Paulette Miechle wrote “Peace For Christmas” in November 2001 following the tragic events of 9/11. Production and packaging of the song took 1 1/2 years and was ready for Christmas 2003 release. Originally Paulette laid down the guitar and vocal tracks as a solo artist, then brought in musicians to add their talents. It became obvious that “Peace” was more than a demo and that’s when Robbyn Kirmsse’ was brought on board for lead and all background vocals.

The song won two contests and is out on 3 CDs and getting airplay around the world in indie markets every Christmas!
