

I've played in numerous R&B bands over the years....including short stints in the back-up bands for the soul groups Blue Magic and B.T. Express (lol....yeah....I was real young). I was also lucky enough to have two of my songs placed (and released on his 2nd and 3rd CD) with Jazz Saxophonist Alfonzo Blackwell, who I have performed with in the past...Including several times at the World Famous Apollo Theater in New York!

I am capable of wearing many hats, (songwriter, producer, session player, engineer) and I'm interested in working with new artists via the internet if distant, at my studio if local.
